ADDRESS BY THE DIRECTOR

All praise is due to Allah alone, and may peace and blessings be upon the Prophet, after whom no other has come.

It is with great pleasure that we welcome you to the Najd Agriculture and Trade Company.

For over fifty-one years, our esteemed institution has been at the forefront of delivering exemplary services with leadership and innovation in the agricultural sector.

Today marks a new chapter as we introduce innovative and sustainable solutions aimed at supporting the Saudi Vision 2030.

Our commitment is to enhance agricultural self-sufficiency in Saudi Arabia.

We take pride in offering advanced, reliable agricultural equipment and machinery that support sustainable farming practices and increase productivity within the sector.

At Najd, our focus extends to providing specialized technical support and efficient maintenance services for agricultural machinery, alongside supplying high-quality, original spare parts.

We understand the importance of fostering sustainable partnerships with our clients, including farmers and investors, striving to meet their aspirations and enhance the efficiency of their operations.

We actively support the entrepreneurial spirit among Saudi farmers and promote the adoption of best practices in agriculture and technology.

Our determination to achieve agricultural self-sufficiency is aligned with our goals to foster environmental and economic sustainability.

We thank you for placing your trust in Najd Agriculture and Trade.

We look forward to continuing to serve and support you in cultivating a prosperous agricultural future for the Kingdom of Saudi Arabia.

And may Allah grant success.

WHO WE ARE

We are Najd Agriculture and Trade Company, a leading provider of agricultural equipment and accessories in the Kingdom of Saudi Arabia.

With over 50 years of experience, we specialize in the supply and sale of irrigation systems, plows, harvesters, advanced agricultural technologies, and feed, as well as soil preparation technologies sourced from premier global manufacturers.

Our comprehensive offerings encompass services, consulting, maintenance, and sales of spare parts, enabling us to enhance the agricultural sector comprehensively.

Our clientele includes productive farmers, agricultural enterprises, and service companies, as well as contractors.

At Najd Agriculture and Trade Company, we are committed to delivering high-quality solutions and exceptional after-sales support to ensure enhanced productivity and sustainability for our partners.

OUR MESSAGE

We dedicate ourselves to delivering exemplary sales services to our client , addressing the demands of the Saudi market and contributing to the realization of the Kingdom's Vision 2030 with a particular focus on advancing the agricultural sector.

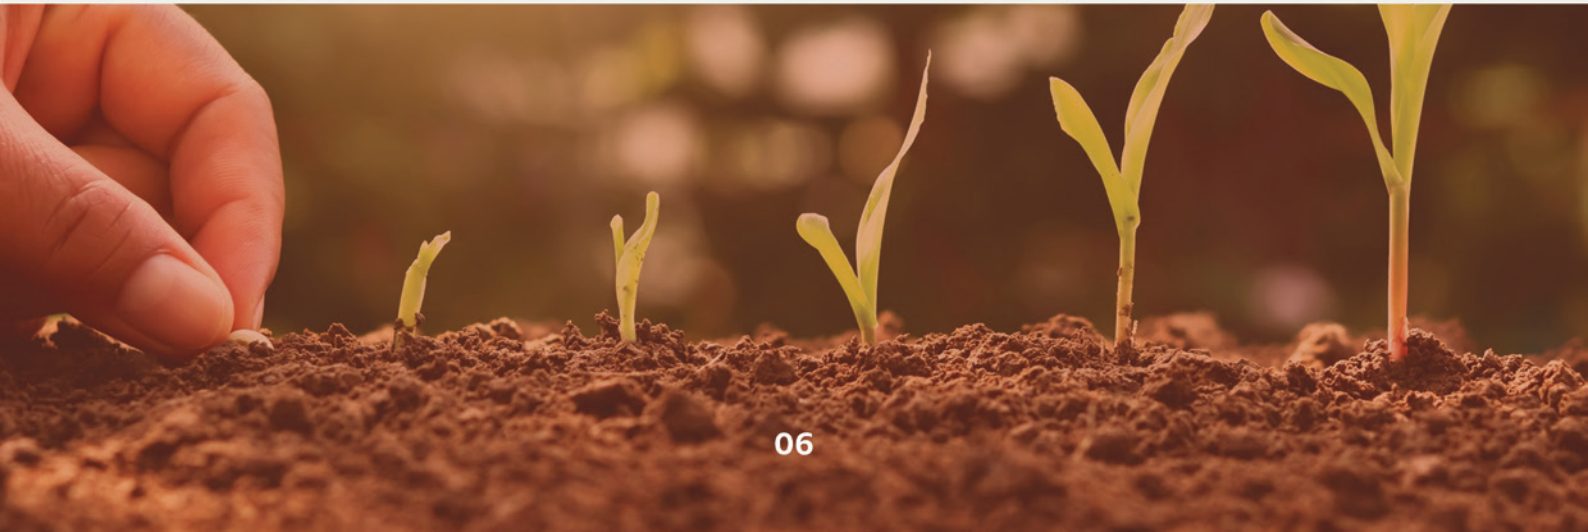

Our objective is to equip producers and enterprises with cutting-edge technologies while broadening our branch network to enhance connectivity.

This expansion enables us to offer comprehensive support services such as maintenance, provision of spare parts, supply chain solutions, and project management, all aimed at elevating customer satisfaction.

OUR VISION

To lead in the revival and sustainability of agricultural production, we aim to fulfill our customers' aspirations by offering superior solutions, technologies, and equipment. Our commitment and credibility drive us to pioneer advancements that enhance the self-sufficiency of the Kingdom of Saudi Arabia.

OUR GOALS

- **Enhance Agricultural Production:** Utilize advanced means and technologies to bolster the agricultural sector's continuous contribution towards national self-sufficiency.
- **Provide Quality Equipment:** Supply robust equipment and accessories that uphold our company's reputation, ensuring optimal investment returns for our customers, coupled with exceptional after-sales service.
- **Forge Strategic Partnerships:** Establish new contracts and collaborations with agricultural entities and producers, aligning with new policies that support the sector and exploring marketing avenues for new products.
- **Offer Expert Consultations:** Deliver expert technical advice to assist our clients in making informed decisions to enhance and expand their production capabilities.
- **Streamline Supply Processes:** Simplify and expedite supply processes, introducing new sales channels that facilitate efficient service delivery.
- **Conduct Feasibility Studies:** Provide detailed feasibility studies and consultations for agricultural projects.

SERVICES

NAJD COMPANY SERVICES

Najd Agriculture and Trade Company offers a range of high-quality agricultural equipment, including:

- . Feed equipment: balers, mounted and trailed harvesters, feed rakes.
- . Soil preparation tools: Portuguese-made plows for soil preparation and crumbling.
- . Irrigation supplies: pivot irrigation equipment, sprinkler parts, and STYER Austrian plow spare parts.

Our equipment is renowned for its durability and ability to withstand challenging conditions.

We represent prestigious suppliers such as KRONE, WELGER, GALUCHO JF, STOLL, INCINER8, LELY, and AGCO.

Najd Agriculture and Trade Company announces the launch of an initiative for the renewal, maintenance, and reassembly of its equipment, including German Welger balers, at maintenance centers at competitive prices for our valued customers.

OUR EQUIPMENT ARE SUSTAINABLE" INITIATIVE"

STEPS OF THE INITIATIVE AND EVALUATION METHODS

PRELIMINARY INSPECTION

Initially, we coordinate with the client and inform them of the initiative's goals, registration steps, and then determine the time and place for the preliminary inspection to assess the initial condition of the equipment in terms of faults and the presence of main parts and whether they are functioning or not. Initially, priority will be given to balers sent and present only at the main center and branch workshops, as their maintenance outside our workshops will be temporarily suspended.

PRICING AND COMPREHENSIVE EVALUATION

In this stage, a comprehensive evaluation of the equipment will be conducted in terms of structure and internal parts, and the cost of renewal will be presented at very encouraging prices for our esteemed clients by skilled technicians, workers, and engineers. These prices will be offered to clients for final approval and to begin.

POST-MAINTENANCE SERVICE

After complete maintenance, the company will offer scheduled maintenance services at nominal prices and a guarantee for operation for certain periods, adhering to performance standards and after-sales service.

OUR EQUIPMENT

TO PARTICIPATE IN THE INITIATIVE

OUR EQUIPMENT

- WELGER FEED BALER
 - ENROSSI RAKES
 - KRONE HARVESTERS AND MOWERS
 - DELIVERY OF EQUIPMENT
 - ORDERS
 - INSTALLATION AND OPERATION
- GALUCHO DISC HARROWS
 - GALUCHO PLOWS AND ACCESSORIES

WELGER HIGH DENSITY BALER

Known to be among the best and finest feed equipment, the German-made WELGER baler is of optimal quality and efficiency, enduring tough working conditions for all types of feed, available in several models AP630D – AP530, it operates with a metal wire tying mechanism. Boasting a sturdy steel frame and a dependable tying mechanism, it has dominated production regions in the Kingdom and North Africa, setting unparalleled standards for reliability. Similar options with matching technology and quality will soon be available at our company.

 **WELGER**

KRONE MOWER

For over 40 years, Najd Company has been the exclusive

distributor of the German KRONE Forage Mower in the

Kingdom, which is available in two types: the mounted

- 6 discs AM and the trailed type with a width of 3.2 meters

EC3200. The company also provides multiple options for

forage harvesting machinery up to a width of 6 meters.

 **KRONE**

ENOROSI RAKES

Italian ENOROSI feed rakes with a width of 4.2 meters – semi-trailed on four wheels for faster operation and to suit all challenging farm conditions. It has an axis width of 2.9 meters equipped with 11 arms and a drive shaft with a speed of 540 RPM.

enorossi

GALUCHO DISC HARROW

Portuguese GALUCHO disc Harrows from Najd Company, available in various sizes from 24 discs up to 48 discs - trailed on wheels to suit the sizes of Tractor power.

These sturdy Disc harrow with a multi-section chassis are a common sight in the Kingdom's farms.

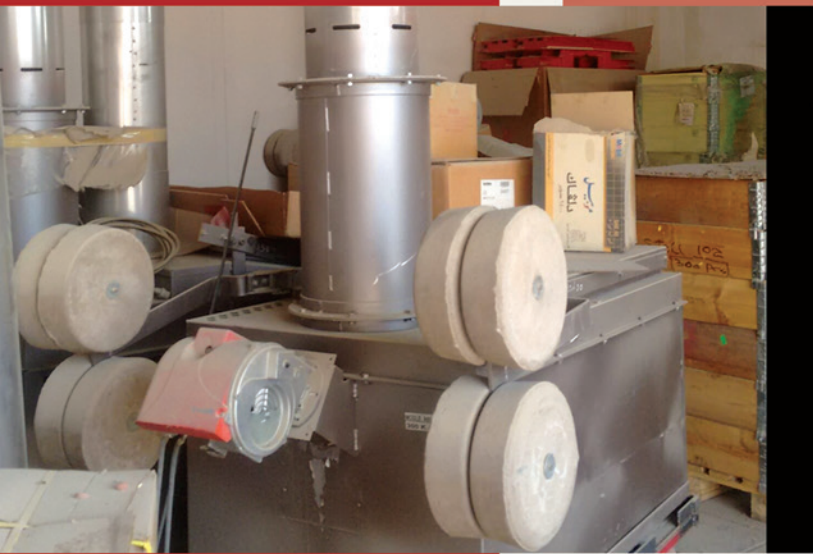

The Harrow come with a hydraulic system to adjust the height and angles of the discs.

GALUCHO PLOWS AND ATTACHMENT

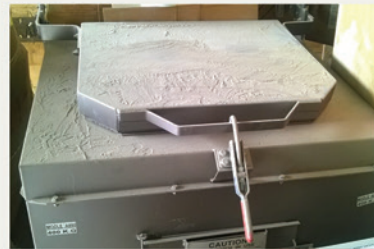

Primary tillage plows include Cultivators - reversible moldboard plow - disc plow - soil leveling Blade - hole digger and furrow opener, and other agricultural attachments from the Portuguese company GALUCHO.

INCINER8 WASTE INCINERATORS

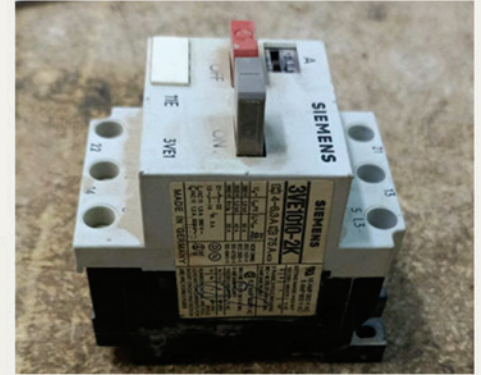

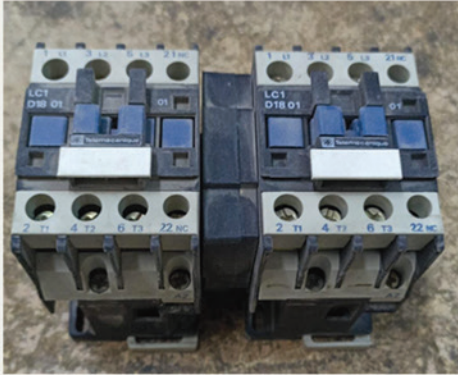

British INCINER8 waste incinerators, which the company has been supplying, selling, and operating for 15 years for all applications, including poultry, cattle, and horse farms incinerators. Available in various sizes up to 400 kilograms and more, with a loading capacity of up to 2400 kilograms, operating on diesel and fuel-efficient - with European global specifications.
